

Important new assistance for all Business Owners...

Business Financial Health Check **Here is how our Qualified Accountants will** **add real understanding to your financials**

Accurate, timely information for effective and improved Business Performance

Do you fully understand the Profit & Loss statements and the Balance Sheet of your business?

Do you make good profits but never have enough cash when you really need it to pay your suppliers?

Do you know what your business is worth or more importantly the value of your equity, that you have been working so hard to build?

Do you know what your real gross profit, net profit and return on your investment [ROI] are and how to improve each of them?

Most business owners have many questions that remained unanswered about their business finances and are at a loss to know who to ask.

Because we understand and want the best for your business, we have created our **Business Finance Health Check**, another new service to assist you to grow your business profits.

As business advisors we are often asked to assist with a whole range of important and potentially expensive business decisions.

This can include buying or selling a business, buying capital equipment, moving or purchasing new premises, employing staff, creating a new product or service and creating a new marketing program. All of these activities require timely and highly accurate information.

Any decisions involving your finances must only be made with the right information.

If you are like most business owners, you spend a great deal of time doing data entry of financial information, producing monthly reports and your BAS, but what does all this information tell you about your business. Is this information current, reliable and up to date and of real value to you right now?

Initial Business Financial Health Check

[Accountant - 6 hours] Review existing accounting structure / chart of accounts / balance sheet / Profit & Loss. Prepare a profile of business performance with financial ratios. One hour Business Consultation.

The **Business Financial Health Check** carried out by our management accountants are an immediate solution that we have used to great effect with our client businesses.

This in-depth review of the financial performance and position of your business is just \$680 + GST, which includes 5 hours of accountancy time and a 1 hour consultation to deliver the comprehensive report with a full explanation.

The information is very comprehensive and have been a revelation to all of our existing clients. The most consistent comment being 'why have I never seen this information before' and 'can we have this on a regular basis?'

Why not take advantage of our in-house, hands-on business financial expertise to greatly enhance your business. Call now for an informal chat with BEC Manager, Chris Gray.
